SK LOGICKÁ HRA

CIEĽ HRY

Dokončíte bludisko a nájdite jediný spôsob, ako dostať rakety na ich planétu.

HRA

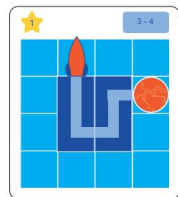

• Zostavte hernú dosku.

Karty s výzvami

Výzvy sú čoraz náročnejšie.

HERNÝ OBSAH

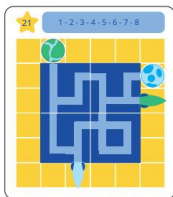

- 1 herná doska (predná a zadná strana)
- 20 kariet s výzvami
- 12 dominových dlaždíc
- 2 štvorcové dlaždice s cestičkou
- 4 planétové dlaždice
- 4 rakety

Úroveň pre začiatočníkov:
modré výzvy
používajú štvorcovú
mriežku 2 x 2
(biely priestor).

Stredná úroveň:
zelené výzvy
používajú štvorcovú
mriežku 3 x 3
(biely priestor).

Úroveň experta: žlté
výzvy používajú
štvorcovú mriežku 4x4

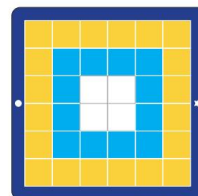

(biely a modrý
priestor).

Magisterská úroveň:
červené výzvy
používajú štvorcovú
mriežku 5 x 5.

(biele a zelené
priestory).

Farba karty tiež označuje, s ktorou doskou sa má hrať: **modrá karta = modrá doska**

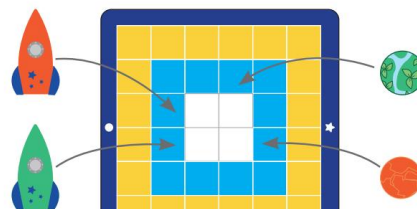

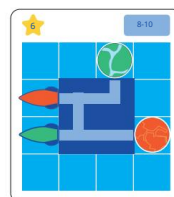

• Vyberte si kartu s výzvou.

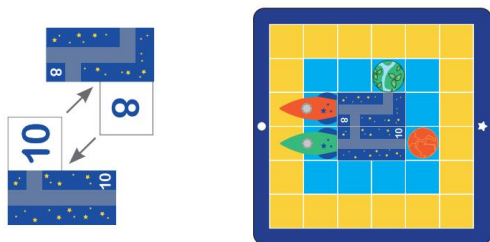

• Vezmite si iba domino kocky použité pre túto mapu.

• Umiestnite rakety a planéty na hernú dosku farby vybranej karty, ako je na karte uvedené.

- Prepojte domino dlaždice dva po dvoch a umiestnite tieto zostavy na bielu mriežku tak, aby ste vytvorili jednu cestu, ktorá povedie každú raketu k planéte rovnakej farby.

Poznámka

- Všetky cesty musia byť navzájom prepojené: cesta by nikdy nemala viesť do prázdneho priestoru.

- Po obnovení cesty musia byť všetky kusy v rovnakej výške: nadmerná hrúbka nie je možná!

Štvorcové dlaždice

sa majú použiť v červených a zelených výzvach.

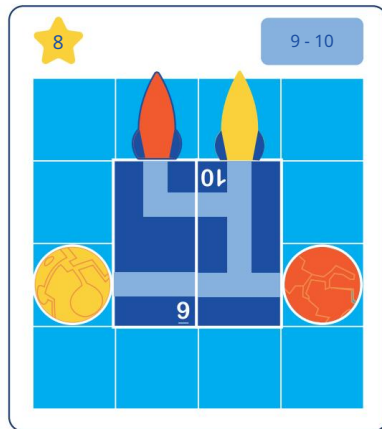

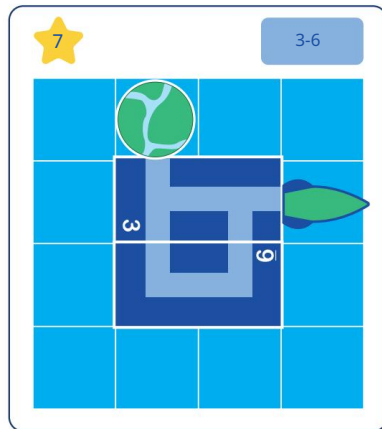

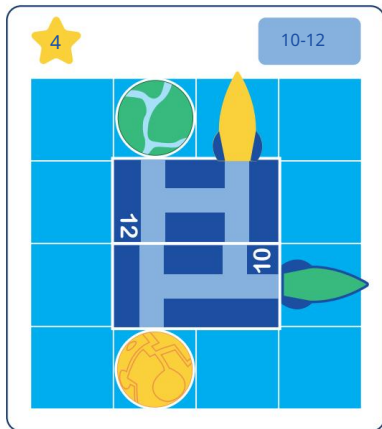

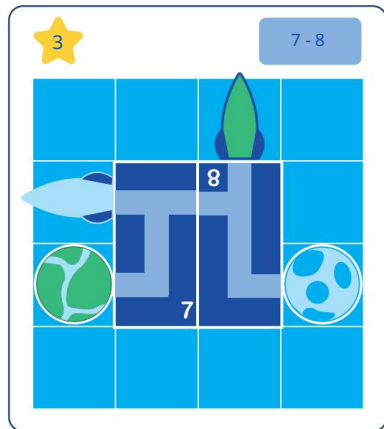

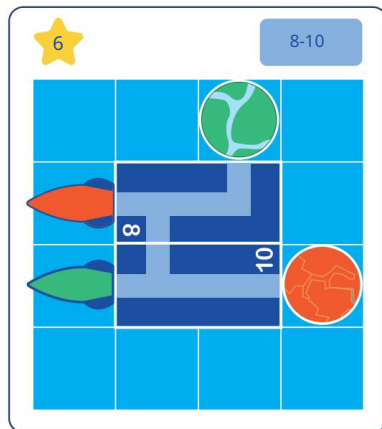

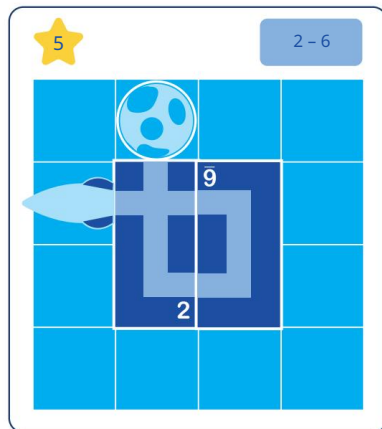

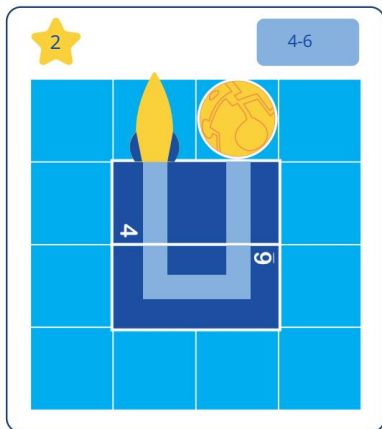

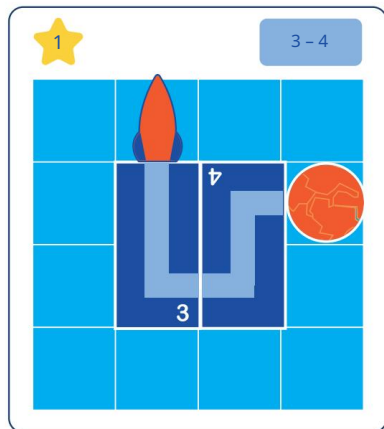

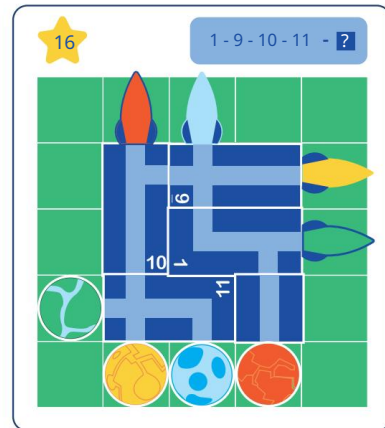

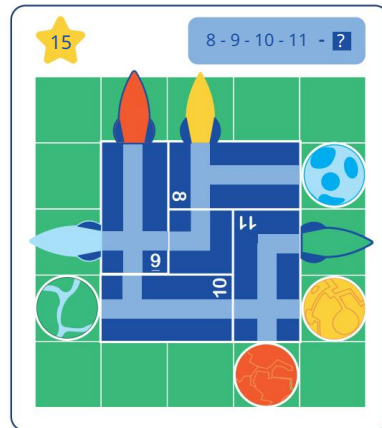

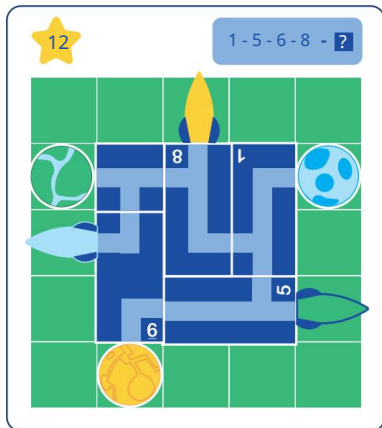

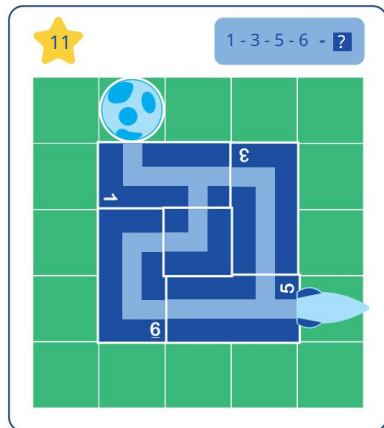

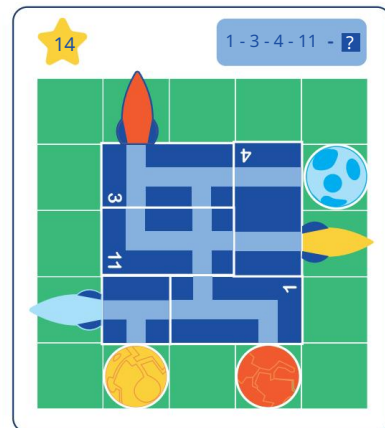

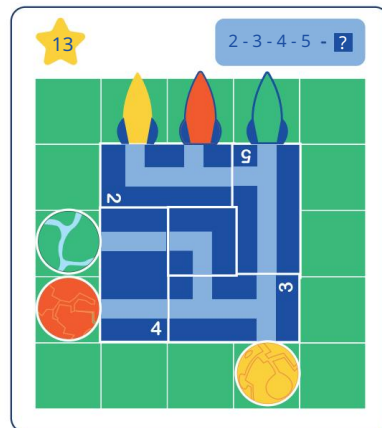

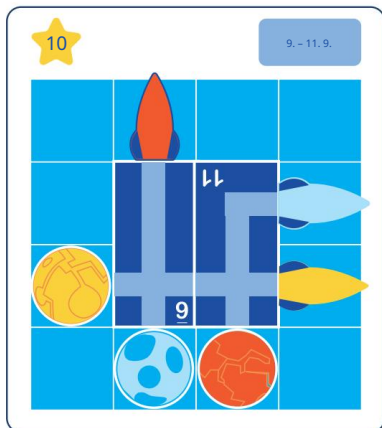

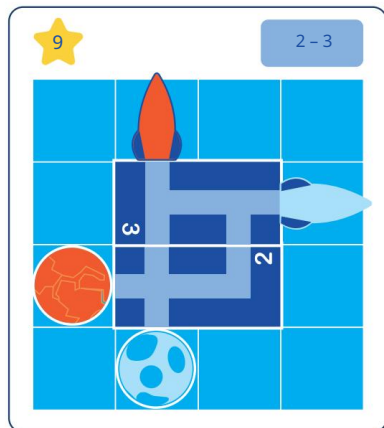

Symbol na kartách s výzvami vám pripomína, že sú potrebné na splnenie výzvy.

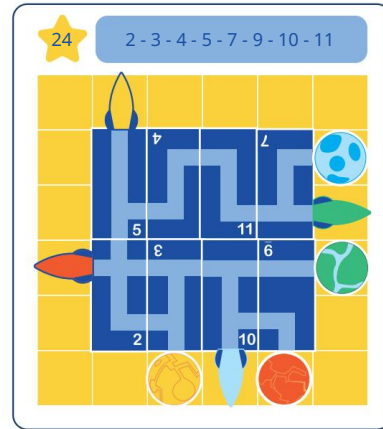

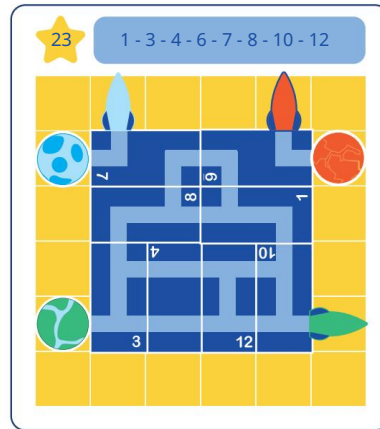

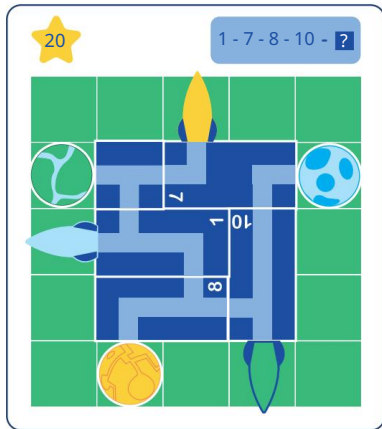

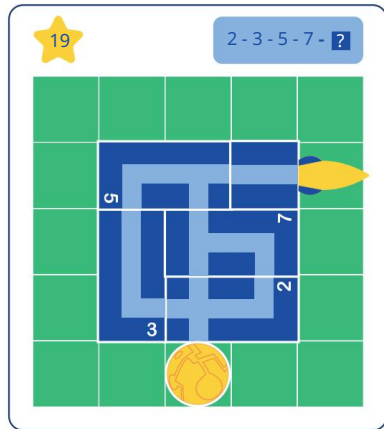

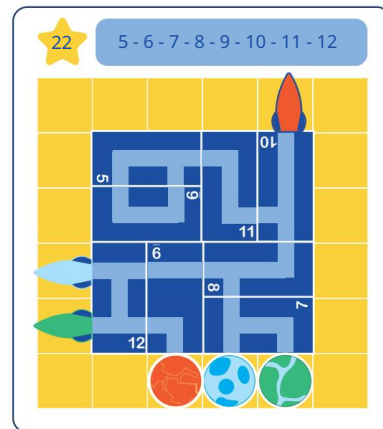

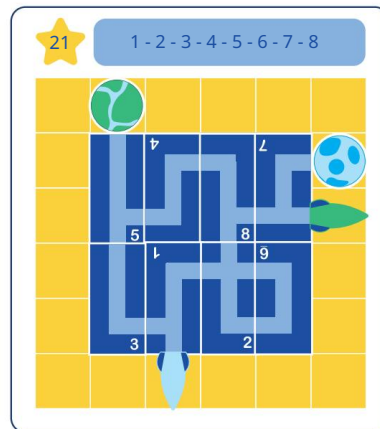

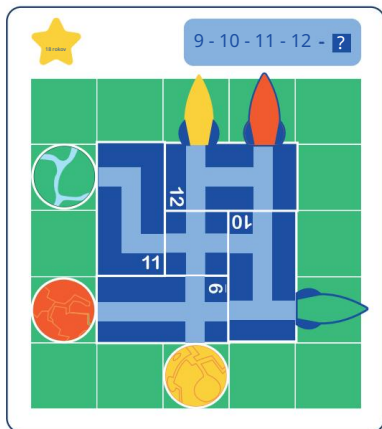

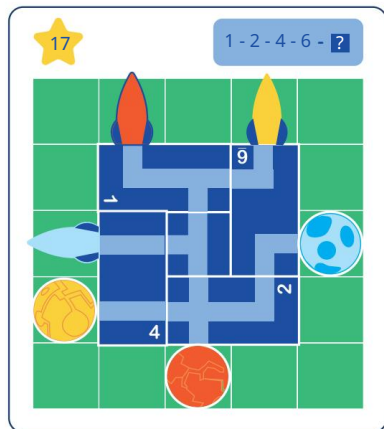

! Prosím, rešpektujte hraciu plochu vyznačenú na vybranej mape.

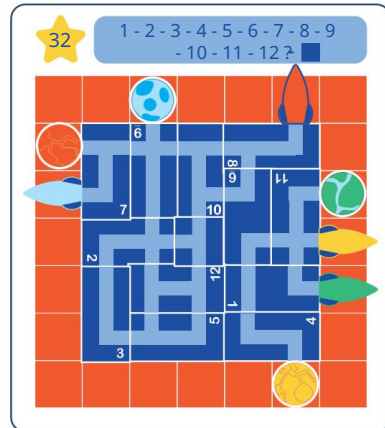

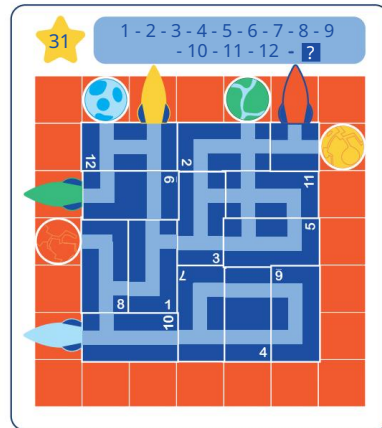

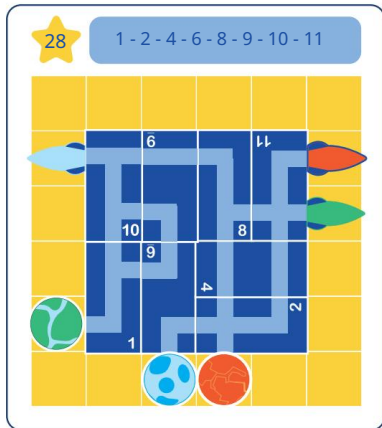

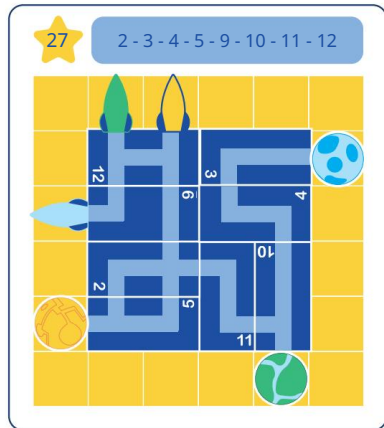

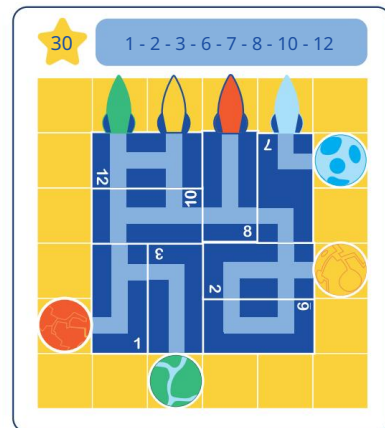

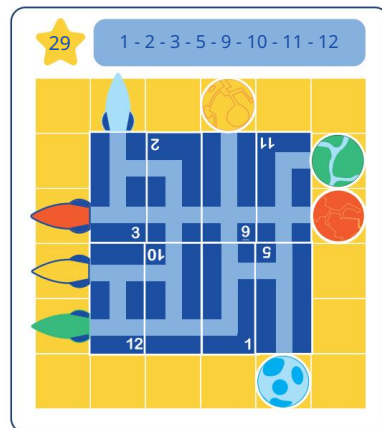

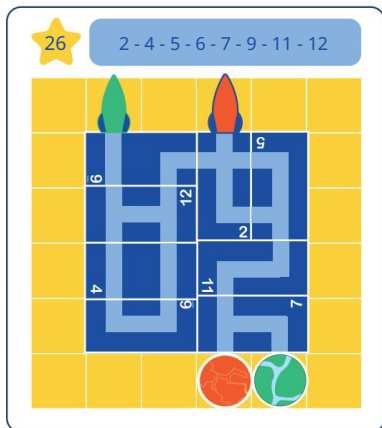

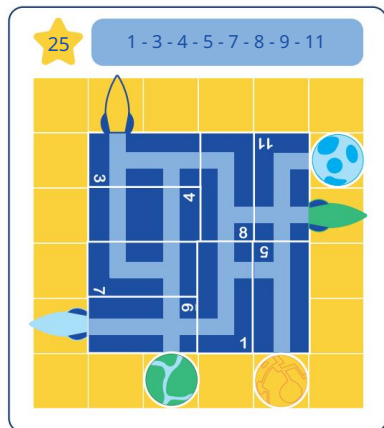

Pre každú výzvu je možné len jedno riešenie!

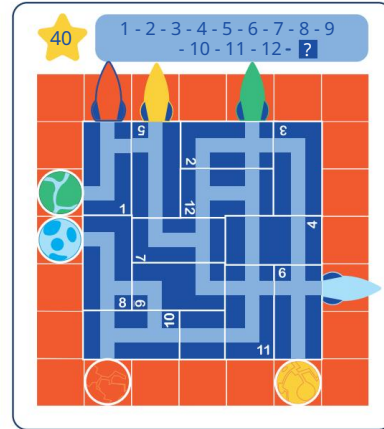

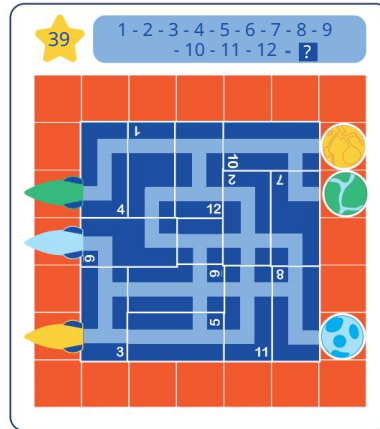

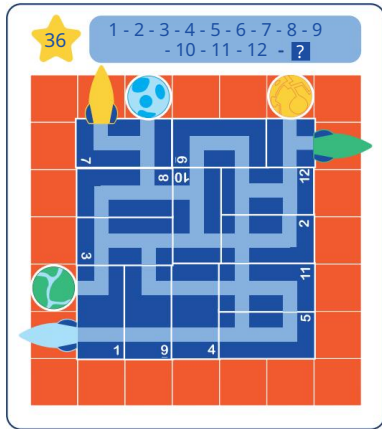

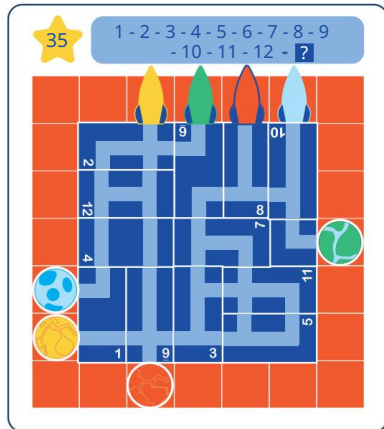

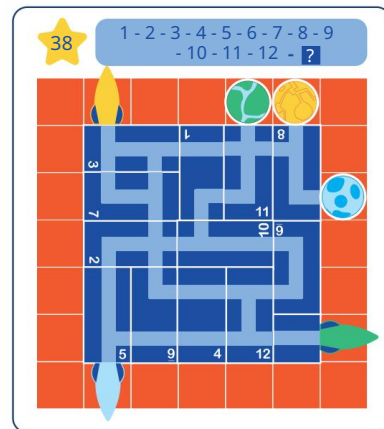

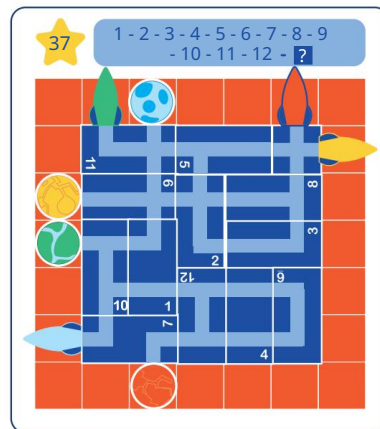

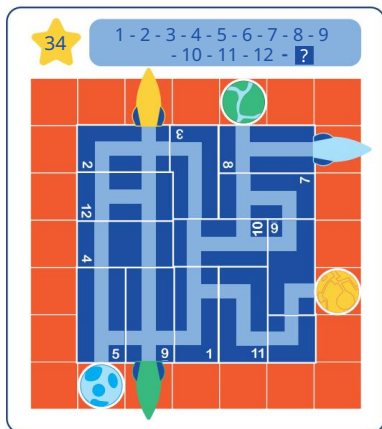

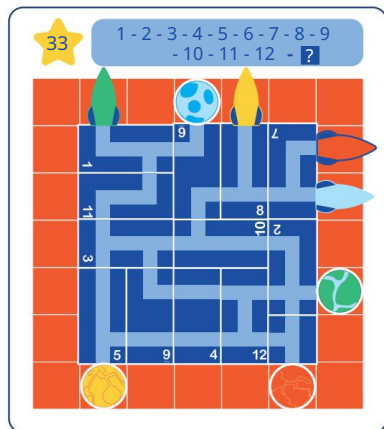

Riešenia nájdete na konci tejto brožúry.
