LOGICKÁ HRA pre jedného hráča

CIEĽ HRY

Umiestniť každého astronauta na jeho vesmírnej stanici podľa pravidiel hry.

OBSAH HRY

- 1 drevená hracia doska
- 7 drevených dielikov astronautov
- 12 plastových vesmírnych staníc
- 1 plastový červený kríž
- 30 obojstranných kariet výziev

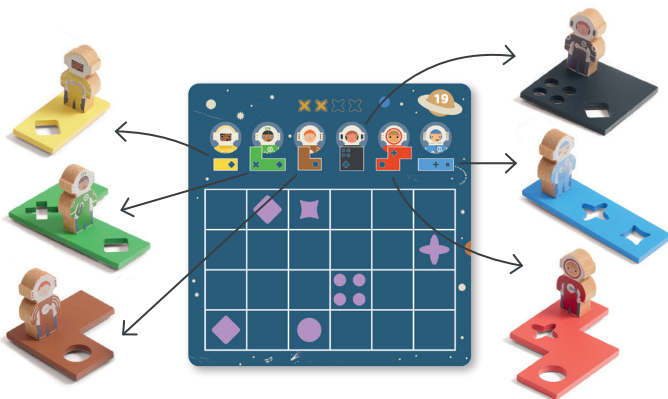

AKO HRAŤ HRU

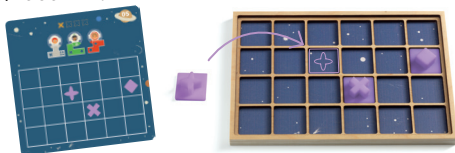

- Položte hraciu dosku pred seba.
- Vyberte si kartu s výzvou/zadaním.

Rastúce úrovne obtiažnosti sú znázornené týmto symbolom: ✕ ✕ ✕ ✕

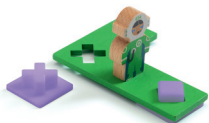

- Vezmite označených astronautov.

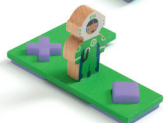

- Umiestnite vesmírne stanice do mriežky hracej dosky ako znázornené na karte s výzvou/zadaním.

Červený križ nie je stanica.
Je to zakázaná zóna – nikto tam nesmie!

Každá podložka astronauta (na ktorej stojí) má výrezy v tvare rôznych vesmírnych staníc.

Astronaut musí byť pripevnený na jednej z 2 možných vesmírnych staníc.

- Umiestnite astronautov do mriežky hracej dosky tak, aby každý z nich bol pripevnený k jednej zo staníc bez toho, aby sa prekrývali alebo aby opustili hraciu dosku.

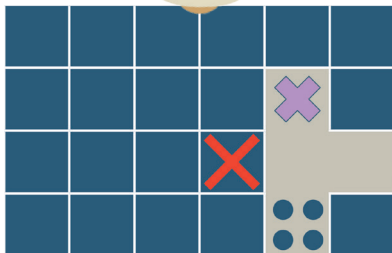

Príklad:

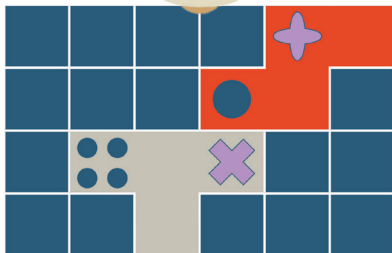

Pre každú výzvu existuje len jedno riešenie!
Riešenia nájdete na konci brožúry.
